Name of the Scheme	Escorts Growth Plan		Escorts High Yield Equity Plan		Escorts Leading Sectors Fund																																																																									
Investment Objective	To generate Capital Appreciation by investing predominantly in a well diversified portfolio of Equity Shares with growth potential. This income may be complemented by possible dividend and other Income.		To generate income by investing predominantly in well diversified portfolio of equity stocks providing high dividend yield but at the same time capture long term capital appreciation as and when the opportunity arises .This long style of investment tries to locate , in a disciplined manner, shares ,which for a variety of reason are selling at prices which are substantially lower than the company's actual business value or future earnings potential, and are also yielding a higher return than normal dividend yield. These companies would be backed by stable earnings in the past while offering fair growth potential in the future.		The investment objective of the scheme is to provide capital appreciation or income distribution by investing in companies from Leading Sectors, depending upon their growth prospects and sustainability of future earnings growth.

Name of the Scheme	Escorts Income Plan		Escorts Gilt Plan		Escorts Opportunities Fund																																																																
Investment Objective	To generate current income by investing predominantly in a well diversified portfolio of Fixed Income securities with moderate risk levels. This income may be complemented by possible Capital Appreciation.		To generate income and capital appreciation through investments in Government Securities . The aim is to generate returns commensurate with minimal credit risk by investing in securities created and issued by the Central Government and/or a State Government and/or repos/reverse repos in such government securities as may be permitted by RBI.		The scheme seeks stable and regular income through an actively managed portfolio of stocks, bonds and money market instruments. The asset allocation is dynamically planned to capture the best of the opportunities in equity and debt Exposure in equity is a blend of large and mid cap stocks, skewed largely towards the well-researched blue chips. In debt, the scheme invests mainly in Central and State Government debt papers besides PSUs and bank bonds. The highlight of the scheme is the extensive use of derivatives not only as a hedging tool but also in generating regular income, which in turn enhances the overall portfolio's risk-adjusted return.
